

- Done
 - Miranda made PRs, Billy merged, with Features page and edits to landing page
 - Working on About page, Kellie commented
 - Kellie writing queries
 - Billy working on login PHP in backend branch, also queries are there
- To do
 - Fix navbar on homepages for consistency with scroll and non-scroll pages
 - Should the user stay logged in when they click out to the landing page?
 - Unset session cookies when they go to the main homepage
 - Billy will implement
 - Add edit features to admin homepage - Christian
 - Front-end optimization, including selectors (IDs instead of classes) - Catherine
 - Billy will have example page using PHP by Monday, others can emulate in order to implement
 - Miranda finishing About page
 - Kellie writing queries
