

- Done
  - Billy: continued work on borrowing history
    - Users: search by item name; admin: search by username
    - Styling - mimic from Main branch
    - Time zones
  - Kellie: sign up query; working w Miranda on addItem fetch calls
  - Christian: admins can view users for a lab, removed most admin code from lablist-and-checkout.js
  - Miranda: cancel reservation query done, Kellie merged
  - Heman: HTML and CSS validation; CSP for security
  - Catherine: not much beyond in-class changes from Friday
- To Do
  - Billy: more work on borrowing history, including search
  - Kellie: finish sign up query, finish writing admin addItem and admin addUser fetch calls, latest by wednesday or friday (11/27, 11/29), if not by then, by next scrum meeting (12/2)
  - Christian: get users for a lab; addUser and removeUser form
  - Miranda: resolving dropdown menu issue, styling consistency, and chasing bugs; final presentation, covering security, etc. which isn't obvious in demo
  - Heman: more security changes
  - Catherine: will make sure deleteItem query works and writing the updateItem query

*Written On: 11/25/24; no other meeting this week due to Thanksgiving holiday*
