

#### Went Well

- Regular group meetings
- Got a lot done on front-end

#### Went Poorly

- Getting into the project itself earlier, instead of getting sidetracked with the first lab
  - Back-end: slow moving, getting on top of that now
  - Front-end: splitting into 2 distinct sprints and having more detailed task
- 
- Note: 10 min. midterm presentation, at least 5 mins demo; can use remaining time as we see fit
  - Miranda will be away 10/10
