

- Done
 - Christian: setting up xampp and local DB; will work on tab for admins to see users with access to a lab
 - Noticed some bugs on backend, making issues and fixing them
 - Billy: working on borrowing history PHP
 - Borrowable: Borrowable - No Return
 - Reservation canceled: Canceled
 - Reservation open (not completed), due date not past: Not Due Yet
 - Reservation open (i.e. not completed), past due date: OVERDUE - RETURN NOW
 - Also needs to style
 - Admins will see username of who checked an item out
 - Miranda: cancelReservation.php
 - Kellie: add item to lab query; add user to lab query; already on backend branch
 - Catherine: fixed merge conflicts then merged Miranda's PR for password changes; working on admin item deletion, query works, JS has probs
 - Writing issue
- To Do
 - Canceling a reservation:
 - only for mistakes while reserving items
 - contact an admin to cancel the item?
 - Do we want to keep cancellation as an option?
 - keep cancellation as an option and give the power to admins
 - add a field in the database
 - Billy: more of borrowing history, fixing issues
 - Christian: fixing backend bugs, making tab for admins to see list of users in a lab
 - Miranda: pull request for cancelReservation, helping Christian fix bugs
 - Kellie: writing fetch calls to admin add item and admin add user, will be done by latest tuesday, will write signUp query
 - Catherine: admin editItem query

Monday meeting - virtual @ 4:30; next Thurs - thanksgiving, no meeting

Written 11/21/24; Heman was absent; according to backlog, he is working on signUp query, but we don't know if he has made progress so Kellie is taking over
