

Worked on lab 1

What was done:

- Billy & Heman did work with JS to revamp the file structure, removing the excess number of html files.
 - <https://github.com/RPI-ITWS/ITWS-2110-F24-LuckyCharms/commit/2260bfe0796c532518cbea94aa658a5df6111953>
- Assigned sections' analysis to members
 - See them here:

TODO

- Heman is destroying the VM due to authentication errors after speaking with the TA. He will make a new one.
- Do all analysis by Monday's scrum meeting
