

**Things completed last week:**

- Backend
  - Billy worked on another query and Kellie will finish her queries
  - Heman began working on his queries
- Frontend
  - Miranda reviewed and merged PR11
  - Miranda will create a pull request for the user-homepage branch
  - Christian finished and will create a pull request for borrowing and history homepage

**Things discussed today and for next time:**

- Frontend:
  - Miranda will create the profile page and look over the new PR Christian made for his borrowing and history homepage
  - Front-end plans to finish most of the pages by next scrum on Thursday and get navigation done over the coming weekend.
- Backend:
  - Heman and Kellie will have their queries done by end of week
