

Happy Halloween!

- Done:
  - Heman merged Billy's PR for file structure refactoring (closed Miranda's issue)
  - Heman relocated all Scrum Logs to a single folder
  - Catherine made PR, which Miranda merged, that fixed a bug and removed unnecessary jQuery usage
    - This created new merge conflicts for Christian's PR; Catherine will fix by EOD (when sprint ends)
- To Do:
  - Sprint review will be on Monday at 5 (need to ask Callahan; Heman texted, will ask in person tmw)
  - We also should start working on a README (?) to keep track of everything just incase
    - Will be a low-priority task for front-end team for sprint 3
  - Miranda will continue to work on the about page and features page over the weekend
  - Kellie continues to work on writing queries
  - Billy continues with PHP
  - Catherine fixing Christian's merge conflicts
  - Christian making form for admins to edit item details (quantities, etc.)
  - Heman making PR w scrum logs
