Done
- Miranda has HTML for profile page and user/admin homepage, will make PR
- Christian's borrowing page markup was merged
- Kellie working on queries
- Heman has code, will create an Issue for security problems

To Do
- JS for borrowing page - Catherine
- Christian might write About Us, etc.
- Routing, clean up file structure - Miranda
- Set up DB w/ phpmyadmin on the group VM - Heman will do, since he has been the Azure guy
- Midterm presentation slideshow
    - Describe backend work, since can't demo
    - Give overview
        - Should be presented by a backend person, since all need to speak
    - Frontend will just be shown in demo, don't need to have slides about that
- Billy will attempt to connect front & backends in a branch
